

# THE INTERNATIONAL 400-DAY CLOCK CHAPTER #168

The International 400-Day Clock Chapter #168 was founded in 1995 to provide a forum for persons to meet and communicate with all who may have an interest in any kind of Torsion Pendulum Clocks. Whether it may be early Crane or Terry, 400-Day, Atmos, Tiffany Never-Wind, French Statue or Lighthouse, or any other torsion pendulum clock this is “the” place to find information about these unique timepieces. Due to its non-geographic nature, the cohesiveness of the chapter depends on two factors:

- First is **“THE TORSION TIMES”**, our quarterly Journal that is published with an annual content of about 120 pages. In addition, a Special Annual Supplement is provided to each member. This will be a previously unpublished work or a quality replica of a vintage catalog or other out of print publication related to torsion clocks. The objective for both our Journal and the Supplement is to provide a blend of historical, technical, and general interest information about these unique clocks that cannot be obtained from other sources. We regularly publish articles and information on all types of torsion clocks including identification and dating, repair, “how-to-do-it”, reprints of important materials, and research reports as well as a FREE Mart.
- Secondly, are chapter meetings scheduled at various Regionals (when facilities and interest justifies) and annually at the NAWCC National Convention. Chapter members who can attend will thus be able to get together for discussions, presentations and informal questions and answers. Members are also encouraged to promote discussions and exhibits about 400-Day clocks within their local chapters and to form local branches of Chapter #168 where there are enough members to set up regular meetings.

Any NAWCC member worldwide in good standing is eligible for membership, in a truly International group with active members in nine countries. The fiscal year begins January 1. A member joining at any time after January 1 will receive all publications issued that year postage paid, with membership expiring at the end of December. There are no provisions for less than full year memberships, and membership in the chapter is separate from NAWCC dues. Annual renewals will be billed separately. We also offer family memberships and prepaid 5-year memberships as shown below.
